

## REGISTERING PROPERTY QUESTIONNAIRE – «DB\_rp\_Survey\_Economy1» www.doingbusiness.org

Dear «FirstName» «LastName»,

We would like to thank you for your participation in the *Doing Business* project. Your expertise in the area of Registering Property in «Survey\_City» is essential to the success of the *Doing Business* report, one of the four flagship publications of the World Bank Group that benchmarks business regulations in 189 economies worldwide. The Registering Property indicator, which measures the quality and efficiency of land administration, is one of the 11 indicator sets published by the *Doing Business* report.

The report attracts much attention around the world. The latest edition, *Doing Business 2016: Measuring Regulatory Quality and Efficiency*, introduced improvements in 6 of 11 *Doing Business* indicator sets. It received over 7,000 media citations within just 3 weeks of its publication on October 27, 2015 and 31.4 million twitter accounts were reached with *Doing Business* mentions within that same period. The coverage spanned major global, regional and local media outlets, from print and broadcast to the web. The *Doing Business* website had over 1 million page views and nearly 60,000 downloads within 3 weeks after the report's launch.

Governments worldwide read the report with interest every year, and your contribution makes it possible for the *Doing Business* project to disseminate the regulatory best practices that continue to inspire their regulatory reform efforts. Since 2010, 92 economies have implemented 135 reforms making it easier to transfer property. In 2014/15, 22 economies implemented reforms such as combining or eliminating registration procedures, integrating electronic platforms, introducing expedited procedures and improving administrative efficiency.

We are honored to be able to count on your expertise for *Doing Business 2017*. Please do the following in completing the questionnaire:

- Review the assumptions of the case study before updating last year's information in the questionnaire.
- Describe in detail any reform that has affected the process of transferring a property since June 1, 2015.
- Please pay special attention to the questions on the overall quality of land administration systems at the end of the questionnaire.
- Be sure to update your name and address if necessary, so that we can mail you a complimentary copy of the report.
- Kindly return the questionnaire to «SurveyAnalystName» at «SurveyAnalystEmail».

We thank you again for your invaluable contribution to the work of the World Bank Group.

Sincerely,

«SurveyAnalystName»

## 1. CASE STUDY ASSUMPTIONS

The Registering Property indicator records the full sequence of procedures necessary for a business to purchase a property from another business and to transfer the property title to the buyer's name. In addition, it measures the overall quality of the land administration systems. In order to assess the time, cost and number of procedures required to complete the process of property transfer, a specific set of assumptions needs to be considered.

### 1.1 Scenario

You are helping your client, a limited liability company, purchase a commercial warehouse that is registered at the «DB\_rp\_4.1.1 a Institution - immovable property registry» in «Survey\_City». This case is a transfer of property, not the first-time registration of a property.

Assumptions	
<b>Parties</b>	<ul style="list-style-type: none"> <li>The buyer and seller are local <b>limited liability companies</b> located in «Survey_City».</li> <li>They are owned by private nationals (with no foreign or state ownership) and perform general commercial activities.</li> </ul>
<b>Property</b>	<ul style="list-style-type: none"> <li>The property consists of land and a <b>2-story building</b> (warehouse): the land area is 557.4 square meters (6,000 square feet), and the warehouse has a total area of 929 square meters (10,000 square feet).</li> <li>The <b>value of the property</b> is «Survey_Currency_Code» «DB_rp_PropertyValueLCUDBcurrent_rounded» (equivalent to USD «DB_rp_PropertyValueUSDDDBcurrent_rounded», equal to 50 times income per capita).</li> <li>The property is registered in the land registry; it is free of title disputes and has no mortgages attached to it.</li> <li>The seller company has owned the property for the past 10 years.</li> </ul>
<b>Transaction</b>	<ul style="list-style-type: none"> <li>The seller company has accepted the buyer company's offer to purchase the property.</li> <li>The parties will undertake every procedure that is <b>officially required or needed in practice to transfer the ownership of the property</b>.</li> </ul>

### 1.2 Definitions

The questionnaire divides the process for transferring a property into distinct procedures and collects information on the time and cost of completing each procedure according to the following definitions:

Definitions	
<b>Procedures</b>	<ul style="list-style-type: none"> <li>A procedure is an interaction of the buyer or the seller, their agents or the property with external parties, including government agencies, inspectors, notaries and lawyers.</li> <li>Procedures that take place simultaneously are marked with an asterisk (*).</li> </ul>
<b>Time</b>	<ul style="list-style-type: none"> <li>Time is measured in <b>calendar days</b>.</li> <li>The minimum time for a procedure is 1 day.</li> <li>For procedures that can be completed online in less than 1 day, the duration is noted as "Less than one day (online procedure)."</li> </ul>
<b>Cost</b>	<ul style="list-style-type: none"> <li>Cost reflects only official fees and taxes; <b>bribes are excluded</b>.</li> <li>Value added tax (VAT) and capital gains should not be included in the cost.</li> </ul>

Please always refer to the case study assumptions and definitions when describing the property transfer process.

## 2. REFORM UPDATE

## 3. LIST OF PROCEDURES FOR TRANSFERRING PROPERTY

For your convenience, last year's answers are included in this questionnaire. They represent a unified response, based on all the answers received from various contributors. Because they represent the responses from all *Doing Business* contributors in your economy, they may not match the specific answers that you or your colleagues in your firm provided last year.

Please update the data for property transfers taking into account the assumptions of the case study presented in section 1.

Please describe any change to the data in detail and indicate since when the change took effect. Please specify whether the changes you make are because of:

- A **reform** — any modification to the property transfer process (in practice or in law) after June 1, 2015;
- A **correction**— meaning that the unified answer was erroneous and did not reflect the reality in your country;
- **Other**—relating to other external factors affecting the property transfer process.

## 4. QUALITY OF LAND ADMINISTRATION INDEX

This section is dedicated to the Quality of Land Administration Index, which evaluates 4 main areas: the overall reliability of infrastructure; transparency of information; geographic coverage; and land dispute resolution mechanisms in place. When answering the questions below, kindly disregard the case study assumptions (section 1).

For your convenience, a summary of the responses provided last year to the same questions is included. Because they represent the responses received from all *Doing Business* contributors in your economy, they may not match the specific answers that you or colleagues in your firm provided last year.

If any of your answers are the result of a reform that came into effect after June 1, 2015 kindly, mention it in the sections for changes comparing to the last year. Furthermore, when answering the questions below kindly indicate the name, reference and date of publication of the relevant law, when applicable.

## 5. RESEARCH QUESTIONS ON GENDER EQUALITY

When answering the questions below, kindly disregard the case study assumptions (section 1). These questions examine if there are any differences in the treatment of married individuals and unmarried individuals as well as sons and daughters. When assessing if the law recognizes equal ownership rights over the property, please consider the capacity to own, use and administer it. Assume the individuals are married and under the default marital property regime or the most commonly used system.
